

## ASP Programme Specification

<b>Programme title</b>	Accredited Scientific Practice Programme in Lower GI Physiology
<b>Programme code</b>	APS3-1-4
<b>Outcome awards</b>	NSHCS accredited ASP in Lower GI Physiology incorporating: <ol style="list-style-type: none"> <li>1. Completion of work-based training (NSHCS)</li> <li>2. Completion of academic content (HEI)</li> </ol>
<b>Total credits</b>	10
<b>Programme level</b>	7
<b>Programme length</b>	1 year
<b>Mode(s) of study</b>	Work-based with integrated part time academic study
<b>Date of approval</b>	21 <sup>st</sup> September 2018
<b>NSHCS programme fee</b>	£870

### Programme Aim:

On completion of this ASP practitioners will have specialist knowledge of the lower GI physiology. Practitioners will be able to perform a range of clinical diagnostic investigations undertaken to investigate disorders of the lower GI system, interact with patients and demonstrate safe, patient-centered practice. This course is designed for nurses and other healthcare professionals who are working in the GI field but have not received formalised training in GI as a specialist area.

### Programme Structure:

<b>Module code</b>	<b>Module Title</b>	<b>Credits</b>
SPS320	Lower GI Physiology and Endoanal Ultrasound	10
<b>Total credits</b>		<b>10</b>

## Learning, Training and Assessment Methods:

Learning and training	Assessment	
Clinical Experiential Learning	<ul style="list-style-type: none"><li>• Work- based assessments</li><li>• Continuous assessment/feedback on progress and achievement in work-based learning</li></ul>	OSFA <ul style="list-style-type: none"><li>• 4 stations</li></ul>
Academic Study	Academic assessments
