

## ASP Programme Specification

<b>Programme title</b>	Accredited Scientific Practice Programme in Upper GI Physiology (only)
<b>Programme code</b>	APS3-1-6
<b>Outcome awards</b>	NSHCS accredited ASP in Upper GI Physiology (only) incorporating: <ol style="list-style-type: none"> <li>1. Completion of work-based training (NSHCS)</li> <li>2. Completion of academic content (HEI)</li> </ol>
<b>Total credits</b>	30
<b>Programme level</b>	7 MSc (STP)
<b>Programme length</b>	1 year
<b>Mode(s) of study</b>	Work-based with integrated part time academic study
<b>Date of approval</b>	7 <sup>th</sup> December 2018
<b>NSHCS programme fee</b>	£870

### Programme Aim:

This ASP aims to provide practitioners with specialist knowledge in upper GI physiology. Practitioners will be proficient in oesophageal manometry, 24hr pH and impedance monitoring, enabling them to practice within a Gastrointestinal Physiology department specialising in upper GI physiology. This course is designed for scientists from other specialisms, nurses and other healthcare professionals who are working in the GI field but have not received formalised training in GI as a specialist area. AGIP support this ASP as a route to accreditation as an independent practitioner to ensure patient safety standards are upheld.

### Programme Structure:

Module code	Module title	Credits
SPS322	Upper GI Physiology	30
<b>Total credits</b>		<b>30</b>

### Learning, Training and Assessment Methods:

Learning and training	Assessment	
Clinical Experiential Learning	<ul style="list-style-type: none"><li>• Work- based assessments</li><li>• Continuous assessment/feedback on progress and achievement in work-based learning</li></ul>	OSFA <ul style="list-style-type: none"><li>• 4 stations</li></ul>
Academic Study	<ul style="list-style-type: none"><li>• Academic assessments</li></ul>	

### Entry requirements:

Employer sponsors are responsible for approving the trainee's enrolment on the programme based on their existing qualifications and experience.
