# Higher Specialist Scientist Training (HSST) examiner recruitment

We are looking to recruit examiners for the Independent Assessment of Professional Skills (IAPS), the endpoint assessment for the HSSTs in Physiological, Physical and Bioinformatic Sciences.

## Benefits of being an examiner

- An opportunity to assess at the highest level of healthcare science
- Experience that will help you to support your own HSSTs
- An opportunity to contribute to the development and progression of future peers in your profession
- An opportunity to network with experienced peers
- Receive an invitation to examiner forums

This is an opportunity to influence the continued wider establishment of consultant level practice in your profession.
