Endorsed - ETP	56	Initial Endorsement	40
Total	991	Total	304

Snapshot of figures as of 15/3/23

# Accreditation Team - Quality focus

- The Accreditation Team collaborate with all teams across the School, working particularly closely with Training Support.
- Where there is a training quality concern, the accreditation team meet with and support the department and the trainee to resolve issues.
- Work with the trainee and the department to help improve the training experience.
- In collaboration with the regional quality teams, the School's Training Programme Directors, HEE Healthcare Science leads and HEE quality leads.

# Accreditation Team - Higher Education Institutions (HEI) monthly meeting

We also chair the meeting with all HEI's where all representatives involved with HSST, STP and ETP meet on a monthly basis to keep each other and the school updated with:

- Latest developments with what is happening on the academic programme.
- Updating us with any concerns regarding trainees.
- A chance for the HEI representatives to ask questions and highlight any issues.

# Update from the Curriculum Team

# Curriculum Team - STP curriculum

- Microbiology STP curriculum will be rolled out for September 2023 intake.
- Developing a new STP in Interoperative Neuro-Monitoring (IONM) with the aim for the programme to be available for September 2024.

# Curriculum Team - ETP curriculum

Curriculum review started

- Appointment to the position of Lead Editor
- Feedback survey has gathered a wealth of information to draw upon
- Next step is for the Lead Editor to work with expressions of interest to establish a Curriculum Review Group

# Update from the Digital Team

# Digital Team - Significant recent achievements

- Development and launch of reflective practice guidance and resources in support of new curricula
- Contribution to the development of the Clinical Data Science Programme PG Cert with University of Manchester  
Applications for funded places are now open
- Integration and further refinement of Turnitin similarity detection feature in the e-portfolio

# Digital Team - 2023 priorities

- Redesign of Train The Trainer and the development of training and education support resources for all trainers
- Development of new trainee information & management system with a focus on management of trainees in difficulty
- A communications campaign to articulate the redesigned and sharpened assessment regime for the new curricula
- Management and enhancement of the School website as we move into NHSE
